

Machinery Specification

(#5374)

TYPE: Two Roll, Two Motor, Vertical Design, Rotary Bar Straightener

MFG.: Bronx

AGE : 1980's

TYPE: Model – PBR.V.6

SERIAL#:

CAPACITY: Bar size 5/16" diameter thru 4-1/4" diameter, x 21' table length

MOTORS: Two individual driven rolls, 40/80 HP. DC motors

SPEED: 0 to 98 FPM. – variable speed

PASS LINE:

FEATURES:

Inlet and outlet bar handling tables

Motorized height adjustment

Motorized bar feed

Motorized discharge

Hydraulic system

Roller bearings rolls, and chocks

Variable frequency speed controls

DIMENSIONS: 60' L. x 10' H. x 15' W. approximate

WEIGHT: 44,000# approximately

CONDITION: very good – manuals & drawings included

SUBJECT TO USA MACHINERY CORPORATION TERMS AND CONDITIONS FORM 487
