

Machinery Specification

(#5375)

TYPE: Two Roll, Two Motor, Vertical Design, Rotary Bar Straightener

MFG.: Bronx

AGE : 1980's

TYPE: Model – PBR.8 – ring frame design

SERIAL#:

CAPACITY: 2-1/8" diameter, thru 5-1/8" diameter x 21' long tables

MOTORS: Two individual driven rolls– 300 HP, each, DC motors

SPEED: 0 to 66 FPM. – variable speed

PASS LINE:

FEATURES:

Inlet and outlet bar handling tables

Motorized height adjustment

Motorized entry

Motorized discharge

Hydraulic system –

Ring design steel frame

Roller bearings rolls, and chocks

Variable frequency speed controls

DIMENSIONS: 100' L. x 15' H. x 15' W. approximate

WEIGHT: 73,000# approximately

CONDITION: very good – manuals & drawings included

SUBJECT TO USA MACHINERY CORPORATION TERMS AND CONDITIONS FORM 487
